

CNC MILLING, DRILLING AND TAPPING **METcase**

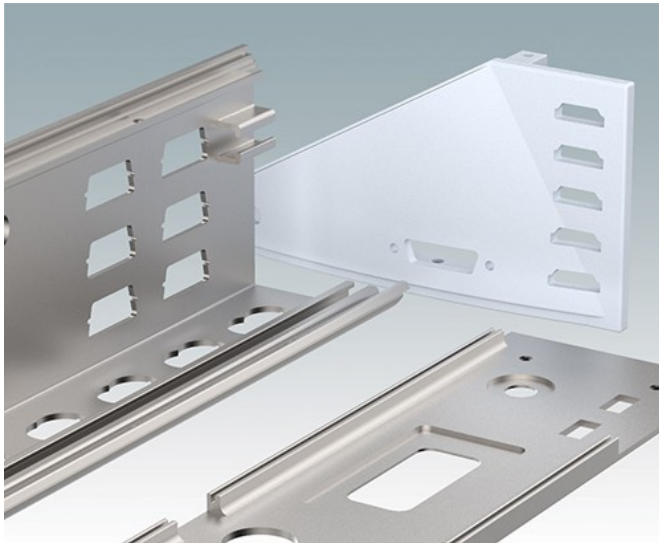

Our factory is equipped with state-of-the-art CNC milling machines which guarantee uniformity and a high quality finish on all drilling, milling, and tapping processes.

We can machine any of our case extrusion profiles and panels with holes and slots for mounting connectors, switches, displays, fan units etc. Tapping of metric and imperial threads can also be carried out.

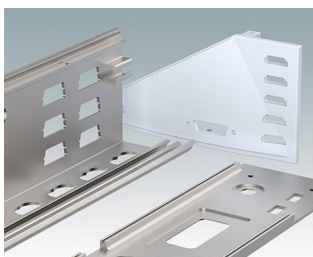

Our machining tolerance is ± 0.1 mm for cut-outs, recessed areas, holes etc. of lengths up to 30 mm, and ± 0.15 mm for lengths up to 120 mm. The minimum corner radius is 1 mm.

We work to your drawings and specifications.
