

Enclosures and front panels finished in your corporate colours

Our in-house facilities include a large powder paint line and a wet paint cubicle.

Optional Stocked Powder Paints (Listed below)

We keep a large selection powder paints in RAL and Pantone colours in stock. There is no additional charge, or minimum order quantity, for painting our standard enclosures in one of our stocked paints. Simply select your desired colour or colour combination from the list below.

Note: colour images are provided as a guide only. Please refer to the exact RAL or Pantone references before finalising your colour choice.

Custom Colours

We can also supply enclosures, front panels and custom metalwork painted in your desired paint colour or special finish. The typical minimum order quantity for special colour enclosures and front panels is 10 to 25 units, depending upon the colour required.

We generally work with RAL colours, but can match other colours on demand. Talk to our sales team if you need a specific colour or finish.

What we offer:

- Powder polyester painting - tough, high quality finish in smooth, fine and heavy textures
- Wet painting - tough, chip resistant, in smooth and textured finishes
- Nickel loaded EMC shielding lacquers for plastic parts
- Linishing of aluminium panels for a blemish free finish
- Natural and colour anodising of aluminium panels
- Interlox 338 conductive/anti-corrosion finish on aluminium panels
- Zinc and clear passivate of CR4 steel panels
- Full colour CMYK digital printing.

Contact our sales team for more information and a quotation.
